

## Presentation

Top level engineering education leading to a Diplôme d'Ingénieur INSA, a Master's degree for Asian students.

This programme aims at giving Asian students high quality training in engineering in a French cultural context. Studying in the heart of Europe, these students will become acquainted with European culture and prepare for international careers. The ASINSA training will no doubt be extremely appreciated by many businesses.

## Informations

For more information about selection criteria, admission, organization of the courses, cost of studies, calendar, download the [Asinsa practical notice](#).
