Description

Objectives

At the end of this module, the student will have understood and be able to explain (main concepts):

- The methods for project rational management
- The main concepts and the tools for quality
- The specific requirements for safety and environment in project management.

The student will be able to:

- Implement only and/or in a team the projects of actions,
- Manage in specialist the implementation and the follow-up of a project
- Plan actions and anticipate those of the others,
- Regulate the activity during project implementation,
- Make choices adapted to the interactions between the actors in order to be efficient,
- Communicate to obtain the wish action,
- Allocate roles between the partners by taking into account the individual skills,
- Act according to the constraints and to the adversity.

Évaluation

L'évaluation des acquis d'apprentissage est réalisée en continu tout le long du semestre. En fonction des enseignements, elle peut prendre différentes formes : examen écrit, oral, compte-rendu, rapport écrit, évaluation par les pairs...
