Presentation

Description

Complete and analyse a realization which is performed during a full semester.

Organization : project

Objectives

The module is aimed at motivating students with research activities by means "tutored projects" involving groups of several students and directed by an academic or an industrial tutor.

At the end of this module, the student will have understood

and be able to explain (main concepts :

- the concepts and techniques in relationship with the

management of the research project involving several persons.

The student will be able to :

- finalize a research project involving several persons,

- integrate scientific approaches and techniques of different scientific domains to meet the realization goals of the research project.
